

Zen Baboon are Daniel Rosado and Henrique Palhavã.

Both were born in the 70`s in Portugal and since an early age kept a close connection with the musical world, focusing on great sound quality and original construction.

Daniel is a sound engineer that worked in a studio in Lisbon and started producing electronic music in the late 90's.

Henrique, a zoologist, lives and works in his own farm and started as an ambient DJ, ("DJ Henriq") and producer in 2001.

They got together in 2003 and decided to melt their musical preferences and create Zen Baboon.
